

Micro 500

Liquid Micronutrient Blend

BULK CONTENTS

Net Weight: _____ Kilograms

(_____ litres)

Lot No. _____

Registration Number 2005088B Fertilizers Act

GUARANTEED MINIMUM ANALYSIS

Boron (B) (actual)	0.02%
Copper (Cu) (actual)	0.25%
Iron (Fe)	0.30%
Manganese (Mn) (actual)	1.20%
Zinc (Zn) (actual)	1.80%

PRECAUTIONS

This fertilizer contains Boron, Copper, Iron, Manganese and Zinc and should only be used as recommended. It may prove harmful when misused. Avoid breathing mist, if any should form. Minimize contact of liquid with eye, skin and clothing. Use good personal hygiene and housekeeping. Safety glasses are recommended. Rubber coated gloves and clothing which minimizes skin exposure are recommended if there is prolonged or repeated exposure of skin to liquid.

TECHNICAL DATA

Weight Per Litre	1.150 Kg.
pH @ 15.5°C	6.93
Freezing Point	-6.67°C
Specific Gravity	1.150

DIRECTIONS FOR USE

Micro 500 is intended for mixing or blending with other liquid fertilizers. This product must be used on the basis of soil and/or tissue analysis, crop grown, yield goals and provincial and federal recommendations for micronutrient applications.

In all cases, seek the advice of the county agricultural representative or a professional agricultural consultant to determine the appropriate rate or the compatibility with other fertilizer products.

FIRST AID

Eye Contact: Flush eyes immediately and thoroughly with water for at least 15 minutes. If irritation persists, get medical attention.

Skin Contact: Flush skin immediately and thoroughly with water. If irritation persists, get medical attention.

Inhalation: Generally not considered an inhalation hazard.

Ingestion: If conscious, immediately give large quantities of water and induce vomiting. Consult a physician immediately.
